

STARFLOW

THE MOST ENTERTAINING STAR

STARFLOW: a star attraction

With its spectacular star-shaped design, StarFlow is an attraction as novel as it is impactful.

Each of its points offers a unique sliding experience, with an exciting change of direction full of ups and downs.

Its dynamic and visually stunning design makes it a striking landmark, attracting all eyes and offering unforgettable fun for families or groups of friends.

The advantages of incorporating this attraction into an existing park are:

- visually impactful
- high capacity (5-user floats)
- compact design to occupy minimal space
- moderate electrical consumption

STARFLOW: the star of adrenaline

This is a spectacular water attraction for 4/5 person floats.

It is composed of successive ramps combined in the shape of a star and based on oscillatory movements of great amplitude, with slopes of up to 60° and reaching speeds of up to 50 km/h.

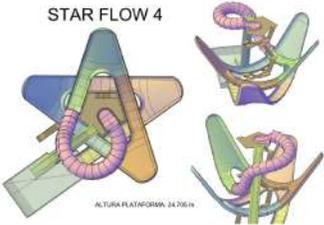

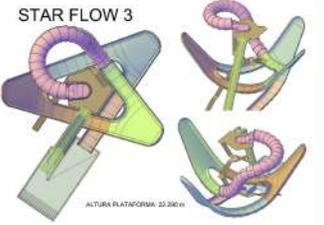

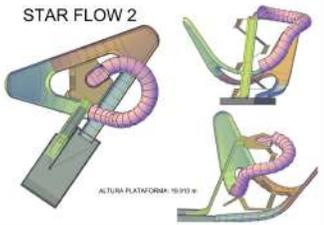

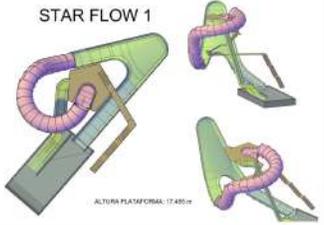

The surface area occupied is approximately 950 m².

An attraction that combines the excitement of acceleration and weightlessness with the spectacle of a giant star.

StarFlow: the star that everyone will want to conquer!

The concept can be simplified by progressively reducing the output height and the number of star points

Variant	StarFlow 4	StarFlow 3	StarFlow 2	StarFlow 1
Output height (m)	24.70	22.30	19.90	17.50
Surface area (m2)	1,530	1,515	1,440	1,095.000
Travel time (sec)	20	16	12	8
The access section can be in a closed pipe or an open channel. The arrival can be on a braking track or a swimming pool.	 <p>STAR FLOW 4 ALURA PLATAFORMA: 24.70m</p>	 <p>STAR FLOW 3 ALURA PLATAFORMA: 22.30m</p>	 <p>STAR FLOW 2 ALURA PLATAFORMA: 19.90m</p>	 <p>STAR FLOW 1 ALURA PLATAFORMA: 17.48m</p>

AMUSEMENT LOGIC: LEADING THE COMPREHENSIVE CREATION OF LEISURE SPACES AROUND THE WORLD

Amusement Logic is an international leader in the creation of comprehensive leisure spaces: from water parks and theme parks to resorts, tourist complexes and unique urban environments.

Based in **Spain** and with **30 years of experience**, we help investors, developers and administrations around the world turn ideas into unique, profitable and sustainable experiences.

A GLOBAL PARTNER FOR TURNKEY PROJECTS

We offer a 360° approach that covers all phases: **initial idea, conceptual design, architecture, engineering (structural, hydraulic and installations), supply of specialised equipment, theming and construction.**
